

# SIX Financial Information and TELEINVEST

## Market Data Feed on PREDATOR.

### SIX Financial Information

SIX Financial Information is a leading global provider of first-rate data services and solutions for financial and insurance firms, corporations and the media. SIX Financial Information aggregates data, directly and in real-time, from over 1,500 worldwide sources, covering all the major trading venues. With 24 international offices SIX Financial Information combines the advantages of local presence with global reach to offer a comprehensive data portfolio along with industry knowledge for professionals specialized in investment advisory, portfolio management, financial analysis and securities administration.

### Market Data Feed (MDF)

SIX Financial Information's Market Data Feed is a high performance, real-time market data service with customizable data selection. MDF delivers market quotes in real-time or on a delayed basis. This mid to high volume service provides the full range of trading sessions, including intraday and historical time series, lists and tables, and business news from recognized agencies. SIX Financial Information consolidates all data into a single consistent format regardless of where in the world the data originates. Based on a sophisticated data architecture, this bespoke broadcast technology is available as two technical interfaces with dedicated server hosting in SIX Financial Information's secure data center.

### TELEINVEST International Ltd

TELEINVEST is a family owned group of companies which consists of three units. One is dedicated to development and product maintenance, another concentrates on sales and marketing, and the third is made up of a specialized team of well-trained supporters acting as centralized local contact to customers. TELEINVEST is well-known and highly valued by experts in the industry.

### PREDATOR

TELEINVEST introduced the first electronic trading system on the Swiss Exchange in 1995, thereby gathering unparalleled experience in this field. The company has continually strived to enhance its know-how and to perfect its product. TELEINVEST is particularly proud to have reinvented the trading platform – it built the system from scratch and still performs 100% of all development in-house. PREDATOR is a platform for multi-asset, multi-market and multi-currency trading activities of prominent Swiss and international banks and other financial institutions. It offers a functional and easy-to-use interface to the data universe of SIX Financial Information's Market Data Feed (MDF).

# Data processing solutions by TELEINVEST and SIX Financial Information

**How to bring the best information into the right formation – SIX Financial Information and Teleinvest joined forces to create a solution that provides the answer to this question.**

Through this solution, the joint efforts of mathematicians, IT engineers, banking scientists and real-time specialists have succeeded in addressing the business of financial transaction systems and the world of securities exchanges around the globe. This solution provides traders with a guarantee that they can keep up to speed in the ever accelerating competitive trading environments. In today's world of electronic communication, the challenge is not only to obtain the right information but to bring this wealth of rapidly-changing information to the client, and with the lowest degree of latency possible, so that the user can take the right decision at the right time.

## **Cutting-edge technology**

Proprietary technology is an essential quality for trading platforms, as with it come reliability, robustness and performance. PREDATOR offers all of this as well as true flexibility to integrate your particular choice of data elements. This means that the client is able to fulfill his specific needs and does not have to settle for a standardized product.

## **A killer combination**

PREDATOR enables clients to simply choose from an impressive range of real-time data sources, updated and maintained by a top international data collector. MDF offers clients the information they need, and PREDATOR integrates it into your personal working tool, exactly the way you want. It is the perfect solution for traders to gain critical information on market depth for all securities traded internationally, thereby fulfilling important MiFID requirements concerning best execution.

### **Key Benefits:**

- Extreme user comfort: Integrates all information traders need into one single working tool.
- Market depth: Market depth information even if you are not an active Exchange member.
- Variety: Choice from a large, global data feed – select an instrument and the place(s) of quotation.
- Mutual understanding: TELEINVEST has longstanding, in-depth knowledge of SIX Financial Information's data feeds.
- Implementation: Simple, economical plug-in for PREDATOR clients.
