

Display Solutions

Used for the financial platform cash.ch.

The Shark2 solution used for media company Ringier's financial information platform, "cash", offers a wide range of financial data. "cash" combines the possibilities offered by the stock exchange information CMS (Shark2) with news from its own reporters. This ideal mix makes "cash" the benchmark for Swiss financial information portals.

Key Features:

- Comprehensive market data, including numerous exchanges, real-time data, level 2 information (e.g. order book), special pages for investment funds, ETFs and derivatives, corporate actions, information on new issues (primary market) and more.
- User pages can be personalised.
- Sophisticated chart analyses.
- Various portfolio views and wide-ranging portfolio functions: transactions, virtual account management, portfolio news, portfolio consolidation/grouping/export, SMS service (daily status of portfolio), etc.
- Price alerts via SMS or e-mail.
- Market data visualisation using clouds, bubbles and heatmaps.

Key Benefits:

- Broad range of news and comments from the "cash" team, including videos.
- Very popular forum.
- Incorporation of third-party content (theScreener, Morningstar, DerivativePartners).
- Incorporation of trading solutions via deep links (user is taken to the corresponding trading screen on the partner's website).
- Product bundles with online order option.
- "cash" (prices) and "cash insider" (news) mobile applications.

Display Solutions

Several billion quote requests are processed each year by the customer solutions SIX Financial Information provides. Using standardised technologies such as HTML and Java, our specialists implement “white label” solutions for banking systems, the Internet, intranet and smartphones that are precisely tailored to our customers’ needs. Financial institutions in European countries, the USA and Asia are already benefiting from the sound expertise and services provided by SIX Financial Information Solutions.
