

Operation & Hosting

Services from SIX Financial Information.

SIX Financial Information does not just develop solutions – we also take care of housing, hosting and operations. Upon request, we can provide an end-to-end service spanning the evaluation, installation, and configuration of all components right through to daily operation. To cater to each of our customers' specific needs, we offer a variety of service level agreements. It goes without saying that our solutions can also be operated directly from the customer's premises.

Key Features:

- Operation of two computing centers to guarantee availability.
- Comprehensive server environment with hardware from a number of providers.
- Unix, Linux, Windows and other operating systems.
- Powerful network split into different zones.
- Internet connection with the desired bandwidth.
- Comprehensive security due to ISO 27002.
- Uninterrupted power supply guaranteed over several hours.
- 24/7 stand-by service.
- 24/7 application support if needed.
- Ticketing system for tracking a fault.

Key Benefits:

- Single point of contact from the initial development stage right through to execution.
- Rapid intervention and fault rectification.
- Secure solution.
- Individual software and hardware requirements addressed.
- Tailored bandwidth.

Operation & Hosting

These services, which have proven their worth over many years, are operated using server farms with a secure infrastructure, back-up computing centers at secondary locations, a direct connection to SIX Financial Information data streams, experienced employees, and application support that is tailored to the customer's wishes.

Overview of the Solutions Categories:
