

# Tquote

The innovative solution for financial advisors.

SIX Financial Information's Tquote service provides easy access to the most up-to-date quotes and financial analysis covering millions of instruments from all the world's leading stock markets.

## Our complete offering at your disposal

Tquote is a revolutionary work tool designed specifically for financial advisors and consultants.

Tquote combines the standard functions of a real-time stock market terminal with those of a securities and portfolio analysis system in the shape of the dedicated analytical section, Tadvisory.

The Tquote service is structured to enable intuitive, integrated navigation between real-time market data, economic and financial news as well as quantitative and qualitative analysis functionality. Tquote boasts a wealth of functions essential to a professional system which makes it the ideal solution for the particular needs of financial advisors.

This high-performance financial information tool enables SIX Financial Information to provide all the elements required to monitor portfolios and securities.

## Key benefits:

- Quantitative and qualitative analysis functionality
- Excellent value for money
- Reference data on all instruments listed on the Italian market, including OEIC funds
- Simple and consistent to consult thanks to its straightforward intuitive menu that allows users to create list and portfolio screens
- Transparency between information from different sources

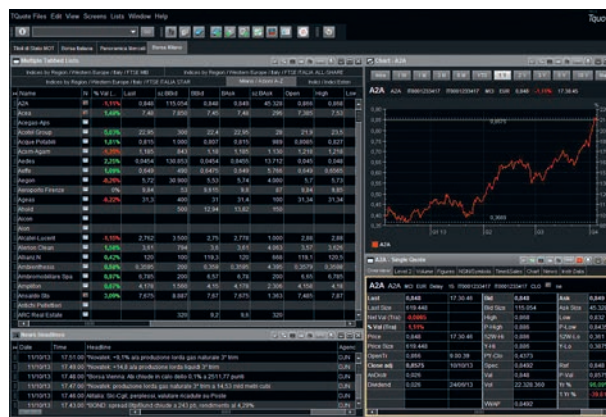

## Complete financial analysis

Tadvisory is the specific section of Tquote dedicated to quantitative and qualitative financial analysis of securities and portfolios. It is made up of modules designed to support all the usual stages of the investment process:

- Instrument research
- Selection of the best securities based on qualitative and quantitative criteria such as the reference data of the instrument, calculation of performance, risk indicators and efficiency
- Customized quantitative analysis of securities and portfolios with a choice of over 20 different indicators
- Customizable graphical analysis providing immediate comparisons between more instruments, indices and portfolios
- Historised model portfolios to facilitate multi-asset management, insertion of benchmarks (including compound benchmarks) and currency specification
- Highly customizable securities and portfolio reports

Tadvisory: quantitative and qualitative financial analysis

Tquote: market overview

## Main functions of Tquote:

- Push updating of quotations and graphs
- Security information
- Derivative instruments such as futures, warrants and options
- Interactive charts and research for technical analysis
- Time & Sales to view all the day's trades
- 10-year historical data in table format
- DDE - Automatic updating of prices in Excel
- Limit function with notification via email

## Main content of Tquote
